(11.) A statement of works sanctioned from the District Funds since the date of the last meeting.

II. Read Government Proceedings No. 12710-11—L. F. 104-92, dated 26th January 1894, observing that an Amrut Mahal bull will be supplied to each Taluk, if District Fund Boards are prepared to pay for the same, and that Government will favorably consider any suggestions for the reduction of prices of bulls to be supplied

Resolved that the Government be requested to order the supply of a bull to each Taluk in the District, fixing the price thereof with reference to the average prices realized by the sale of such bulls at the Nandi and other Juras, as directed in Government Proceedings No. 8482-4—L. F. 104-92, dated 27th November 1893.

for appropriation a proposal to increase the pay of the Dandis attached to the third class Travellers' Bungalows.

IV. With reference to Government Proceedings No. 17170-1—L. F. 208-93, dated 11th April 1894, sanctioning the entertainment of servants to take care of certain public buildings and bathing places in the District, the Amildar of the Goribidnur Taluk brings to notice that the pay of Rs. 4 therein sanctioned for the sweeper of the Musafarkhana at Goribidnur is inadequate, owing to dearness of labor, in consequence of the close proximity of the place to the Railway line and the Sugar Factory.

Resolved that the Government be requested to sanction a pay of Rs. 5 for the said servant.

V. Read Government Proceedings No. 14537—L. F. 155-93, dated 2nd March 1894, directing that the cost of road approaches to Goribidnur and Doddakurugodu Railway Stations on the Bangalore-Hindupur Railway be met from the District Funds, and stating that Government will have no objection to the works being executed, if the District Fund Board approve of the estimate submitted for the same.

Resolved that the above mentioned works be executed, and the cost met from the District Funds.

VI. Read correspondence ending with Government Proceedings No. 16765—L. F. 74-93, dated 4th April 1894, regarding the proposed purchase of the rest house with out-houses, &c., built by the Railway authorities near the Tondebhavi Station on the Bangalore-Hindupur Railway.

Resolved that the sanction of Government be applied for for the purchase of the Rest House with the out-houses, &c., at a cost of Rs. 1,500 and for the appointment of a care-taker on Rs. 5 per mensem to look after the same, the question of the construction of the Musafarkhana sanctioned for Tondebhavi in Government Proceedings No. 14305 6—L. F. 74-93, dated 27th February 1894, being held in abeyance for future consideration, after sufficient experience is gained as to the adequacy or otherwise of the accommodation afforded to the public by the buildings to be purchased.

VII. Read correspondence ending with the Executive Engineer's docket No. 77, dated 24th March 1894, to the address of the Deputy Commissioner, regarding the extension from Melur to Sidla ghatta of the road proposed by the Deputy Commissioner of the Bangalore District to be opened from Vadigenahalli to Melur.

The cost of opening out this road in the District to a length of about four and a half miles is estimated by the Executive Engineer, Kolar Division, at Rs. 10,500, and the same being prohibitive, the Board resolve that the work cannot be undertaken, as the advantage to be gained thereby, which will be the saving of a few miles in distance, is incommensurate with the large outlay involved.

VIII. Read correspondence ending with this office docket No. 3392-1919, dated 28th March 1894, to the address of the Executive Engineer on the subject of metalling portions of Budikote Railway feeder.

Resolved that the question be deferred for discussion at the next meeting of the Board, the Executive Engineer being absent from this meeting.

IX. Read copy of docket No. 2280, dated 2nd May 1894, from the Chief Engineer in Mysore to the address of the Executive Engineer, Kolar Division, requesting the latter officer to submit an estimate in consultation with the Executive Engineer, Tumkur Division, for the portion passing through Kolar Division of the proposed railway feeder road from Maddagiri to Goribidur, and to obtain the approval of the Local Fund Board to the cost being met from the District Funds.

Resolved that the portion of the road passing through Kolar Division be opened at the cost of the District Funds, provided the Local Fund Board of the Tumkur Circle undertake the portion passing through that Division.

X. Read Government Proceedings No. 18107-8—L F. 190-93, dated 26th April 1894, sanctioning the levy of tolls on certain roads near the British frontier in the Mysore District, and prescribing rates.

Resolved that Government be moved to sanction the establishment of similar toll gates on the following roads in this District passing into the British Territories, as the income therefrom is roughly estimated at Rs. 10,000 per annum:

(1) Malur-Hossur road.
(2) Do Bherike road.
(3) Venkatagirikota road.
(4) Madras-Cannanore road.
(5) Bangalore-Cadapa road.
(6) Bagepalli-Chelur road.
(7) Bangalore-Bellary road.
(8) Bangalore-Hindupur road.

XI. The Executive Engineer submits the following estimates for approval, and suggests that the loop line from Dodhasala to Kolar, a distance of three miles and three furlongs, may be included among the roads to be regularly maintained from the District Funds with a mileage allotment of Rs. 30:—

(1) An estimate amounting to Rs. 174 prepared by the Kolar Amildar for constructing a road dam and a tunnel on the road leading to the Antarganga spring.

(2) An estimate amounting to Rs. 285 for mile and furlong stones for Goribidnur-Bairanhalli road.

Resolved that the above proposal and the estimates be approved, and the works mentioned in the estimates be executed during the current official year.

The Executive Engineer submits for the consideration of the Board a supplemental application for a re-appropriation of Budget grant for the year 1893-94.

Resolved that the said application be submitted to Government for sanction.

Sir,-

With reference to para 3 of Govt. Proceedings No 21682-6/LJ 227-93 dated 13th June last, I have the honor to report as follows:-

(a). Government Consider that strictly no local cess is chargeable on Irrigation cess whether the cess is levied separately or is merged in the land Revenue, and requesting to report what the practice has been in the District

2. In this District — Irrigation cess not merged in the land — assessment is separately recovered in the Talukas noted on the margin at one anna per rupee of wet and garden assessment, and upon such Irrigation cess no local fund cess is levied

3. In the remaining Talukas of the District Irrigation cess is

merged in the cost and garden -
assessment, and in the Survey accounts
the whole amount is shewn as "Land
assessment", the amount included therein
as Irrigation Cess not being separately
shewn, and a local Cess of one anna
on the Land assessment is levied. -

4. As observed by Government
the Irrigation Cess merged in the
assessment ought to be excluded and
the local Cess levied on the balance
only which is the Land assessment
proper. No order appears to have
been received to levy the local Cess
on the Consolidated assessment, but
as it is shewn in the accounts as Land
assessment, the Cess seems to be
levied under Section XIII of the
Survey Guarantee.

To,

The Chief Secretary to the
Government of Mysore
Bangalore

Sir,

With reference to Government Proceedings No 7085-92 dated 7th ultimo inviting attention to para 3 note (2) of Government Proceedings No 2168-26 of 13th June last, and requesting to quote any order that may have been received authorizing the levy of the local cess on the Consolidated assessment which includes the irrigation cess, I have the honor to state as follows:-

2. In para 3 of Proceedings No 21682-6 dated 13th June last it is observed "that strictly no local

Local cess is chargeable on irrigation cess, whether the cess is levied separately or is merged in the Land Revenue," and Government request to know what the practice has been in the district

3. With reference to the above, I beg to state that in Notification No 105 dated the 10th June 1871, it is ordered that in substitution of the Plough Tax and other Local Fund cesses levied in the unsurveyed Taluk of Mysore, a Local Fund cess at the rate of half an anna on each rupee of assessment will, pending the introduction of the Survey Settlement therein, be imposed on all lands in such Talukis. - but on the introduction of the Survey Settlement into any Taluk, the Survey rate of Local Fund cess will be levied therein in accordance with the Survey Rules on the Subject..

4. In Notification No 43 of 24th November 1879, the rate of half an anna was increased

to

to one anna in each Rupee on all the items of Revenue on which it is collected..

As per Survey Guarantee published in page 53 of Survey Manual, it is notified vide part XIII - that Local Fund at the rate of one anna per Rupee will be imposed on the full Survey Valuation; and in para XIV of the above rules, it is stated that the irriga tion cess is merged in the ordinary assessment. In accordance with the above rulings, the Local Cess of one anna on each Rupee, is levied on the full Survey assessment on all Govern ment lands i e. on the Consolidated assess ment which includes the irrigation cess..

6. With regard to levy of local cess on Kayem gutta and Survamanya Villages, I beg to state that in paras XVII and XVIII of Notification No 341 dated 11th February 1875, published in pages 161 and 162 of Mysore Revenue Manual it is ordered that as the irrigation cess - is merged in the future Survey Valuation

of all wet lands held in as Inam, whether in Government Villages or in whole Inam Villages ——— $\frac{2}{117}$ of such Valuation should be Collected under the designation of "Equivalent to the Irrigation cess". But in Proceedings No 3786-95-101 dated 1st September 1887 para 2, the levy of equivalent of Irrigation cess on whole Inam Villages was abolished, and it was ordered that the Kayemgutta Villages and Inam Villages (Survamanyam or Godi) shall pay Local Fund cess at the rate of one anna in the rupee, the former at the fixed Kayemgutta rent and the latter on the recorded Value of the Inam.

7. In accordance with the above rulings Local cess is levied on the Kayemgutta and whole Inam Villages.—

8. Similarly local cess is levied on Minor Inams in addition to the Irriga-tion cess which is levied at one anna per

per Rupee on the Survey Valuation as per Proceedings No $\frac{1466}{233}$ of 9th February 1887.

All the Talukas in this district, have been settled since 1877 i.e after the issue of Chief Commissioner's Notification on No 341 dated 11th February 1875, abolishing the imposition of irrigation cess as a separate levy on Government wet lands, hence the irrigation cess is merged in the Survey Valuation of all Government Wet lands in this district and the local cess is levied in the consolidated assessment which includes the "Irrigation cess"

10. From the foregoing it may be observed that Local cess is levied on the full Survey assessment as directed in Government order above referred to viz Notification No 105 of 10th June 1875 and No 43 of 24th November 1879. No Separate order appears ever to have been issued directing any deduction of the merged irrigation fund for purposes

of calculation of the Local cess. In fact no data exists showing the wet land assessment separately and the irrigation fund separately for each survey number and unless such a basis is available it will be difficult if not impossible to fix the amount of Local cess to be collected on account of each survey field including the merged portion of the "Irrigation fund". -

11. The Statement appended to Government Proceedings No 174-57 / R 212 dated 30th July 1894 shows the allotable irrigation fund in the total survey "Beriz" of wet lands, I presume. If so, adopting this figure would be erroneous in as much as actual demand for the year is always less than the Survey "Beriz" above referred to. Again when a larger sum in the shape of a fixed amount of irrigation fund is deducted from

from the Survey assessment and Local cess calculated on the balance, the credit of Local cess to the Local Fund will be less in proportion to the difference between the actual Collection of wet assessment and wet Survey "Beriz". I submit these remarks with reference to the directions in para 2 of the order in question viz; Proceedings No 1747-57 / R 212 of 30th July 1894, to the effect that in sum thus assigned to any Taluk must be regarded as the fixed Contribution during the currency of the Settlement.—

12. I beg therefore to submit that the full Survey assessment as shown in the AKar Band is the only true basis for calculating the local cess thereupon and that the proposal of excluding the irrigation fund on a wet number from its assessment before determining the local cess is impractical without a separate

register

register showing each land assessment purely by itself for each wet survey number.
